

Partner with us in making sure families get the support and resources they need.

Why encourage your clients to get an Undivided annual Navigator membership added to their spending plans?

Undivided helps families navigate the unique challenges they face every day. Parents can use our app to digitize their paperwork, achieve more with 1:1 coaching from a Navigator, and join our inclusive member community to get support and answers on almost any topic from people who've been there. We're here to get kids the support they need and parents the support they never even knew was available. We've been there, so we know everyone deserves to have a trusted partner by their side.

How to get an Undivided annual membership into a client's spending plan:

- #1 Ensure that there is a parent education goal. Here is an example other IFs have used: "For [Child's] parents to better understand how to support [Child] in all aspects of life."
 - #2 Add an Undivided annual Navigator membership to the spending plan using parent coaching, parent consulting, or parent training. While every Regional Center may code differently, the code used for an Undivided membership is typically 371 or 331.
 - #3 Once an Undivided membership is in the spending plan, the family will need to let the FMS know they want to have Undivided added as a vendor, so Undivided can invoice for the membership.
 - #4 Depending on the specific FMS, the family fills out the top part of the vendor form. They will need to pull some information from their spending plan.
 - #5 Undivided will fill out the vendor information on the form and invoice the FMS annually.
- Additionally, Undivided offers add-on services where parents can work with an education advocate, health insurance advocate, and/or public benefits specialist. These services can be added to spending plans under parent coaching or community integration supports (371, 331).

We're happy to speak to you and any of your clients about how Undivided can help them. Sign up here for a 15-minute informational call, or visit undivided.io to learn about how families can try a Kickstart for free!
